## Todd Purgason of juxt interactive

As co-owner and creative director of Juxt Interactive, **Todd Purgason** is known for his intense, Flash-based work for clients as diverse as Adobe, Target, Sony, and Fuse TV. Since co-founding Juxt Interactive in Newport Beach, California, in 1998, Purgason has delivered fresh Web experiences consistently, from innovative Flash 1.0 sites to today's attention-grabbing Facebook modules.

Purgason came to interactive Web design from architecture, and it's evident in the attention to detail and integration found throughout Juxt's portfolio.

**CSCA is pleased to welcome Purgason as our next guest speaker.** We invite you to hear him describe his work and methods.
